Guidance for sections A and B

For a Party, the contact is the national focal point designated in accordance with article 17. A Party may in some cases have a specific contact for purposes of trade in mercury. In both of these cases the contact information would be made publicly available by the Secretariat. If neither of the above is in place, communication will be effected through the Party's ministry of foreign affairs, for instance through its permanent mission in Geneva.

In the case of non-Parties, it is their responsibility to determine who their responsible government officials will be.

Section C: Shipment information to be provided by the exporting country
--

Please indicate the approximate total quantity of mercury to be shipped:	8625 kg (250 flasks equivalent)
Please indicate the approximate date of shipment:	February 2022 – July 2022
Please indicate if the mercury is from primary mercury mining:	No.
Please indicate if the mercury has been determined by the exporting Party to be excess mercury from the decommissioning of chlor-alkali facilities:	No.
(If the exporting country is a non-Party, the importing Party shall also request that Form C be completed.)	
<p>Guidance</p> <p>Information regarding the approximate total quantity of mercury to be shipped allows the importing country to make an informed decision about any shipment to which it is consenting, while the approximate date of shipping assists in any effort to track the shipment that the country may wish to undertake.</p> <p>If the mercury is sourced from primary mercury mining it may not be used for artisanal and small-scale gold mining but it may be used, for a limited time as set out in paragraph 4 of article 3, for the manufacturing of mercury-added products in accordance with article 4 or in manufacturing processes in accordance with article 5. It may also be disposed of in accordance with article 11 using operations that do not lead to recovery, recycling, reclamation, direct reuse or alternative uses.</p> <p>If the mercury has been determined by the exporting Party to be excess mercury from the decommissioning of chlor-alkali facilities the Party is to take measures to ensure that it is disposed of in accordance with the guidelines for environmentally sound management referred to in paragraph 3 (a) of article 11, using operations that do not lead to recovery, recycling, reclamation, direct reuse or alternative uses.</p> <p>If the mercury is to be disposed of, the procedures for transboundary movements of waste set out in article 11 (3) (c) of the Convention shall be followed. In such cases this form cannot be used.</p> <p>When the exporting country is a non-Party, the importing Party shall not allow shipment where the mercury originates from one of these two sources, unless it has applied paragraph 9 of article 3.</p>
